

# YOUR 2017 HOLIDAY HIT LIST

Make 2017 the year you head to Toronto for a chic city break

Another year, another holiday to plan – here are the latest must-visit destinations to tickle your travel fancy

## CANADA

With the country celebrating 150 years of independence, 2017 is sure to roll like one big party for Canada – and we've heard it's got no issues with gatecrashers, so what better time to plan a visit? Try Toronto for a cosmopolitan city break in the spring, or Québec City for oldy-worldy European charm. Hit the Rocky Mountains for a once-in-a-lifetime road trip in

the summer months, then later in the year it's all about Nova Scotia, Ontario (whose capital is Toronto) and New Brunswick, where the autumnal colours are so vivid they'll blow your mind. What with the Canadian dollar being weak, and right now being a dynamic time for fusion food across the country, well, you don't need telling twice. [canada.travel](http://canada.travel)

## GRAZIA WEEK IN WEEK OUT

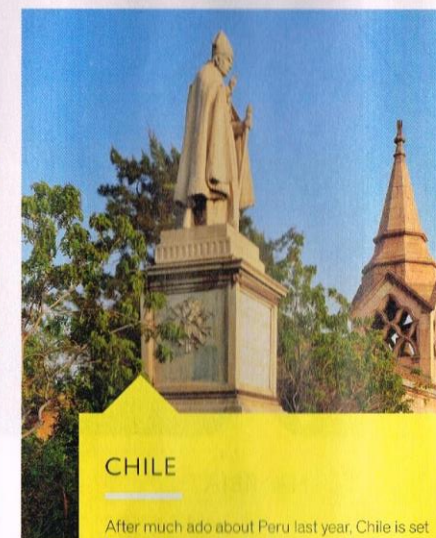

Sail down the Limmat river for a panoramic view of Zürich's beautiful old town

## ZÜRICH

Some are calling Zürich the new Berlin. Unlike Geneva, which probably underwhelms those of us who don't have hundreds of thousands to spend in its designer stores and spas, Zürich boasts a lot more colour and character, with lido bars, a beautiful old town, museums that won't make you snore, festivals aplenty and locals who like to party. As for where to stay, there are plenty of Airbnbs but, for the slickest boutique stay in town, it's all about the Marktasse Hotel ([marktassehotel.ch/en](http://marktassehotel.ch/en)). Plan a spring-summer trip to see the city at its best.

From sightseeing in Santiago (left) to trekking in the Andes (right), Chile has it all

## CHILE

After much ado about Peru last year, Chile is set to steal its crown as the buzzing destination in South America. British Airways' new direct route from London Heathrow to Santiago makes the country more accessible than ever before, cutting out lengthy stopovers and making it more realistic to fit into a holiday window. From skiing around Santiago to trekking around the Andes, visiting the driest desert in the world, exploring the glorious national parks and, of course, making the most of the wine, Chile has something for everyone.
